

I can only get K-love in my car and I love hearing all the news topics that relate to the world and the christian community. It makes me feel connected. I personally would have to go to listening to tapes all the time because I do not want to hear any of the nasty, or insinuating comments that most other DJ's make during their programs also we already have three radio stations that sell advertising thus for this size community that is ample. K-love always has news and information that is worthy to be listened to by any individual who wants to know about our world not just our area.
